**Clarke's  
Blood  
Mixture**

THE WORLD-FAMED BLOOD PUR-  
IFIER AND RESTORER.

IS WARRANTED TO CLEAR THE  
BLOOD FROM ALL IMPURITIES FROM  
WHATEVER CAUSE ARISING.

For Scrofula, Scurvy, Eczema, Skin and  
Blood Diseases, Blackheads, Pimples and  
Blemishes of all kinds, it is a never failing and  
permanent cure.

Cures Old Sores.  
Cures Sores on the Neck.  
Cures Sore Legs.  
Cures Blackheads or Pimples on the  
Face.

Cures Scurvy.  
Cures Ulcers.  
Cures Blood and Skin Diseases.  
Cures Glandular Swellings.

Clears the Blood from all Impure mate-  
rial, and restores it to its normal state.  
It is a real specific for Gout and Rheu-  
matic pains.

It removes the cause from the Blood  
and Bones.  
As this Mixture is pleasant to the taste  
and warranted free from anything injuri-  
ous to the most delicate constitution of  
either sex, the Proprietors solicit sufferers  
to give it a trial to test its value.

THOUSANDS OF TESTIMONIALS OF WON-  
DERFUL CURES  
FROM ALL PARTS OF THE WORLD.

Clarke's Blood Mixture is sold in bottles  
of 4d each and in cases containing six  
times the quantity, the sufficient to effect  
a permanent cure in the great majority  
of long-standing cases. By ALL CHEM-  
ISTS and PATENT MEDICINE VEND-  
ORS throughout the world. Proprietors,  
THE LINCOLN AND MIDLAND COUNT-  
Y DRUG COMPANY, LINCOLN, ENGLAND.  
Trade mark—"BLOOD MIXTURE."

**CLARKE'S BLOOD MIXTURE.**

CAUTION.—Purchasers of Clarke's  
Blood Mixture should be sure that they  
get the genuine article. Worthless  
imitations and substitutes are sometimes  
sold off by unscrupulous vendors. The  
words, "Lincoln and Midland Counties  
Drug Company, Lincoln, England," are  
engraved on the Government Stamp and  
Clarke's Blood Mixture is sold in the  
bottle in the bottom without which  
NONE ARE GENUINE.

# FARMERS FIGHT 'EM

The Insect Pests and  
Blights of  
Hawaii.

Following is the address of D. L. Van  
Dine, entomologist of the U. S. Experi-  
ment Station, before the U. W. C. A.,  
on Insect Pests of Hawaii:

The subject as announced for this paper  
was "Blights and Pests of Hawaii." I  
have taken the liberty to change it to  
"Insect Pests of Hawaii" with just a word  
on blights. A "blight," using the term  
in its correct sense, is a plant disease  
caused by a fungus growth. These parasitic  
fungi belong to plant life and are  
similar to the insect enemies of plants  
only in that they are detrimental to plant  
growth. The methods used to combat  
them are also similar in a general way,  
that is, precautionary measures in culti-  
vation and the use of poisons to prevent  
their becoming established or check them  
if they have already become established.  
A familiar example of a blight is found in  
Hawaii in the "potato blight." The germs  
of this disease are widely distributed over  
the islands and render the raising of po-  
tatoes in certain localities next to an im-  
possibility. The germs of fungi are dis-  
tributed by the wind and other agencies  
and may survive in the soil for several  
years waiting proper conditions under  
which to develop. This blight here is a  
similar disease to the potato blight known  
in other parts of the country as "black  
rot." The scientific name of the disease  
is *Fusarium*. The so-called lantern  
"blight" which is in evidence on the Is-  
land of Maui and in lesser quan-  
tities elsewhere, is not a blight at all but  
a true insect, belonging to a great group  
known as scale-insects. The name of this  
particular one is *Orthesia insignis*. If I  
were to enumerate all of the pests of Ha-  
waii the list would be a long one there-  
fore without going into details on blights  
I will confine my remarks to the insect  
pests.

That great class of creatures that sur-  
round us in such countless numbers, the  
insect world, plays too important a part  
in the well being of a community to re-  
main unobserved. They stand before us  
under two heads; our friends and our  
foes, the beneficial and the injurious.  
When we remember that all animal life  
depends directly or indirectly on plant life  
and realize the good or damage that can  
be wrought by insects when present in  
sufficient numbers, the importance of an  
economic study is obvious. Before speak-  
ing of the pests I wish to tell for just a  
moment on the beneficial insects for it  
would be far from right to have you go  
away with the impression that this class,  
the pests, was the only one which affected  
our pocket-books. Certain ones in the  
fertilization of flowers perform a most  
important part. Man in his conceit re-  
gards that the bright color of the flowers  
and the brilliant markings of insects are  
list but to please his eyes. Their mission  
in life is equally as serious as his. The  
flowers and certain insects are intimately  
related. The insect attracted to the flower  
either by the odor which so many times  
draws us also to them, or by color, in  
return for the feast placed at their  
disposal in the nectary of the flower,  
gathers on their hairy bodies the grains  
of pollen and in the journey from flower  
to flower bring about cross-fertilization.  
This is necessary to insure the pro-  
duction of seed. We are all acquainted  
with the honey-bee, that specimen of in-  
dustry which so often furnishes a text for  
a sermon to the spendthrift. Insects are  
also many times beneficial in the destruc-  
tion of injurious species. A scale insect,  
the cottony-cushion scale, threatened at  
one time a large share of the fruit trees  
of the fruit districts of California. In  
some cases orchards were all but ruined.  
Its natural enemy, a small beetle, one of  
the lady-bugs, was introduced and prac-  
tically wiped the orchards clean of the  
pest.

Now finally we come to insect pests.  
Injurious insects may be separated into  
the following classes: (1) those feeding  
on the external parts of the plant, the  
foliage, buds, flower or bark. In this  
class we find here in Hawaii, the Japanese  
beetle, the poké worms, mealy bugs, plant  
lice, scale insects, grasshoppers, and oth-  
ers. (Illustrations of beetle and cut-  
worms.) Much of the destruction of vege-  
tation is done by insects in the larval or  
young stage. In them we do not always  
recognize the adult. We little dream that  
the beautiful moth or butterfly is the  
adult of the crawling worm of yesterday  
that destroyed our plants. (Show illus-  
trations from Holland.)

(2) Those feeding on the internal parts  
of plants. This class is well illustrated  
here by the cane-borer. The cane-borer  
is the larva of a beetle (*Sphenophorus  
obscurus*). The beetle lays the egg in the  
stalk of the cane after first making a hole  
with her long beak or proboscis. The larva  
hatches from the egg and burrows into  
the cane eating and growing as it goes.  
Finally when fully developed it changes  
to a pupa after first making for itself a  
cocoon of the fibre of the cane. From this  
cocoon emerges the adult beetle.

(3) Those feeding beneath the surface  
of the ground. The root lice, etc. Phy-  
loxera of the grape vine.

(4) Insects living as parasites on ani-  
mals. Ticks, fleas, etc.  
(5) The various household pests. Among  
the last class we find such pests as the  
ant, cockroach, bed-bug, certain flies, and  
the mosquito. This last pest is perhaps  
the most troublesome as well as the one  
demanding the most serious attention.  
Screening the house is practically the  
only method adopted here to combat this  
pest. It has several natural enemies here  
most conspicuous of which is the dragon-  
fly. (Show illustrations from Howard.)

LIFE HISTORY OF THE MOSQUITO.

The eggs of the mosquito are laid at  
night by the female on the surface of still  
water. They occur in a small raft-like  
mass which contains several hundred eggs.  
The entire mass is about one-fourth inch  
in length and is dark in color. The eggs  
are fastened snugly together in rows and  
are arranged in the places selected by  
the female for depositing the eggs are  
such places in which water has been left  
standing, ponds, ditches, water-tanks,  
tubs, etc. The eggs under favorable con-  
ditions hatch in about one day's time.  
The larvae require about a week for  
growth, feeding meantime on the floating  
particles of organic life to be found in the  
water. The pupal stage follows which is  
much shorter. The adult mosquito issu-  
ing is about two or three days. The pupal  
stage is a period of transformation when  
the creature changes from larva to the  
adult or from an aquatic insect to one  
living in the air. The larvae and pupae  
although living in the water, require air,  
and must therefore come to the surface  
to get it. The larva breathes by means

# MOURNING WIDOW UPBRAIDS COOK OF THE FRED J. WOOD

S. Oto, the Japanese Cook on the F. J. Wood.

Gusaboro Tanbaro, Accused of the Murder of Capt. Jacobsen.

(From Wednesday's daily.)

Mrs. J. Jacobsen, the widow of the  
murdered captain of the Fred J. Wood,  
yesterday morning severely upbraided  
S. Oto, the Japanese cook on the ves-  
sel, for not preventing the killing of  
her husband. The interview between  
Mrs. Jacobsen and the cook, whom the  
alleged murderer accuses of the crime,  
was of dramatic interest. Mrs. Jacob-  
son is still in deep mourning and car-  
ried her babe in her arms. Oto, immac-  
ulate in black clothes and with a white  
dress shirt, rose from his seat as the  
widow of the murdered captain began  
talking to him with pleading intensity.  
Both were in the United States Mar-  
shal's office waiting to be called as wit-  
nesses before the Federal grand jury  
which was considering the case in the  
room above.

The Japanese listened to Mrs. Jacob-  
son quietly and without a change in the  
expression of his face as she told him  
that he was to blame for the murder  
of her husband. He made no answer  
to her accusations even when she said  
that he might have prevented the mur-  
der and when she asked if he was not  
sorry. She asked also if the captain  
had ever mistreated him or if he had  
reason to complain and the Jap shook

his head without speaking.

Finally when Mrs. Jacobsen told him  
that he might have taken the knife  
away and prevented the murder Oto  
was aroused to action, and replied that  
he had no opportunity to secure hold  
of the weapon. He illustrated this by  
showing how the wounds were inflicted,  
saying that it was all over before he  
could get near Gusaboro. At this one  
of the sailor witnesses who was also in  
waiting sprang up and told the Jap  
that he was not telling the truth as he  
had made no attempt to save the cap-  
tain. Oto evidently did not take the  
words of Mrs. Jacobsen very seriously  
or at least he gave no indication of any  
effect they might have had. Mrs. Jacob-  
son told him that while perhaps he  
had no part in the commission of the  
crime, yet it was his duty to have pre-  
vented it.

THE PETIT JURY.

The petit jury was called yesterday  
morning and immediately excused until  
Thursday, when the criminal cases will  
be taken up. A special venire for fif-  
teen additional trial jurors was issued  
yesterday, returnable Thursday morn-  
ing. W. Von Gravenmeyer, H. Cannon  
and H. P. Eakin were excused, not be-  
ing American citizens. M. Phillips was  
excused upon a physician's certificate,  
and A. F. Clark because he is a Terri-  
thorl official. H. M. Mott-Smith is in  
Paris and did not answer to his name.

GRAND JURY IS DONE.  
The grand jury completed its work  
yesterday afternoon and will make a  
report to Judge Estee this morning at  
9:30 o'clock. Indictments will without

doubt be returned against Gusaboro for  
the murder of Captain Jacobsen, and  
against Jean Sabate for violation of  
the postal laws. There are also likely  
to be indictments against the two Chi-  
nese charged with counterfeiting, and  
for the violations of the internal reve-  
nue laws.

Oto, the Japanese cook whom Gus-  
aboro said had stabbed Captain Jacob-  
son, was before the grand jury as a  
witness, and his connection with the  
crime was not passed upon by that  
body. There is virtually no evidence  
against the cook excepting that of the  
cabin boy, and his statement is not be-  
lieved, being full of contradictions.

THE PETIT JURY.

The petit jury was called yesterday  
morning and immediately excused until  
Thursday, when the criminal cases will  
be taken up. A special venire for fif-  
teen additional trial jurors was issued  
yesterday, returnable Thursday morn-  
ing. W. Von Gravenmeyer, H. Cannon  
and H. P. Eakin were excused, not be-  
ing American citizens. M. Phillips was  
excused upon a physician's certificate,  
and A. F. Clark because he is a Terri-  
thorl official. H. M. Mott-Smith is in  
Paris and did not answer to his name.

Exercise in Heart Disease.

Among the many changes which have  
taken place during the past twenty  
years in the methods adopted in the  
treatment of heart disease, few have  
been more marked than those which  
depend on the recognition of the fact  
that better results are to be obtained  
by exercise than by rest (writes the  
"Hospital"). The facts having been as-  
certained that the maintenance of  
health, and indeed in many cases of life,  
in the presence of disease of the heart  
depends on the development of com-  
pensatory cardiac hypertrophy, and  
that such hypertrophy tends to break  
down when exposed to strain, men were  
led in times gone by to the apparently  
logical conclusion that the heart ought  
at all hazards to be saved from effort  
lest its compensatory hypertrophy  
should be endangered. Hence for many  
years it was the custom to treat car-  
diac cases on such a system of cod-  
ding, and avoidance of exertion as to  
leave the heart at the mercy of any  
sudden call for increased effort which  
might be made upon it by the various  
vicissitudes or accidents of life. During  
recent years, however, a great change  
has come over the view taken of car-  
diac therapeutics, and especially of the  
question of exercise in heart cases. It  
has become increasingly obvious that  
the power of cardiac, as indeed of any  
other muscle, has a certain relation to  
the range within which it is accus-  
tomed to be exerted, and that in most cases  
when failure of compensation does ul-  
timately occur it arises not from the  
heart being unable to meet the de-  
mands made upon it by the ordinary  
daily routine, but from its being ex-  
posed to some extra strain, arising from  
some intercurrent illness or unavoidable  
exertion. Thus it became clear that  
if cardiac patients were to be at all safe  
their hearts must be trained and accus-  
tomed to do a good deal more than meet  
the calls made upon them by the strictly  
ordered and carefully regulated mode  
of life which used to be considered the  
only state of existence proper to such  
cases.

CHICAGO, Oct. 2.—Coal jewelry has  
arrived at last and the street hawkers  
are reaping a rich harvest. Over on  
State street yesterday afternoon the  
shoppers were startled by the cry, "A  
black diamond necklace for only a  
quarter."

Those who stopped saw a hawk  
bearing his tray. Upon it were strung  
coils of coal beads. "They're genuine  
and warranted," was the sign upon the  
tray. The peddler did a thriving busi-  
ness.

On Clark street another vender was  
selling scarf pins. "Black diamond pins  
for a quarter," was the sign which  
floated from the tray. The anthracite  
was cut in the shape of a genuine dia-  
mond. "It's pure and the color is fast,"  
was the guarantee.

A Madison-street hawk had breast  
and tail pins for women.

"You who have money to burn, look,"  
his sign read. "Warranted to last a

quarter."

# Be Strong

Why not be strong? Why not have  
a good appetite and a good digestion?  
Why not feel well and hearty all the  
time? You can just as well have it  
your own way as not, for there is  
strength, vitality, power, and good  
health in every bottle of Ayer's Sarsa-  
parilla. Always keep it on hand.

Here are the words and the photograph of  
Mr. J. H. Archer, of Hobart, Tasmania:  
"I often find myself weak, without appe-  
tite, and my whole system all run down. My  
blood gets impure and I have boils and eru-  
ptions. Then I always use Ayer's Sarsaparilla,  
for it makes my blood pure and rich, gives me  
strength and vitality, and braces me up  
wonderfully."

**AYER'S  
Sarsaparilla**

There are many imitation "Sarsaparillas."

Be sure you get Ayer's.

Keep Ayer's Pills on hand and quickly cor-  
rect any tendency to constipation. It's an  
easy way to prevent sickness.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

## LOOK TO THE LEGISLATURE

### Plan of Associated Charities for Support.

At the monthly meeting of the Associated Charities, held yesterday afternoon, an excellent financial statement was shown, in which the treasury is in possession of funds to carry on its work. Governor Dole, president of the association, was in the chair, and there was a large attendance. One of the principal subjects discussed was the question brought up at the annual meeting by Treasurer George Carter, in which he recommended that each society affiliating with the associated charities be asked to endeavor to secure aid from the government through the legislature for the running expenses of the organization. At the last meeting a motion was presented by Rev. W. D. Westervelt, as follows: "That the question of securing from the legislature an appropriation for the running expenses, but not for the charitable contributions, be referred to the executive committee for action."

Governor Dole said yesterday that the effectiveness of the work of the Associated Charities would be increased if it was generally known that the government gave it support for its running expenses, which amount to about \$2,000 annually. The subject was discussed favorably by Rev. W. D. Westervelt, Rev. Alexander Mackintosh, Mrs. Berger, the manager, C. H. Cooke, the treasurer, Governor Dole, Mrs. Dole and others. It was urged that the delegates from the various societies bring the matter up in their respective organizations.

At last month's meeting George Carter resigned as treasurer and C. H. Cooke was elected to fill the office. When Mr. Carter resigned there was a deficit of \$286.90. Mr. Carter turned over a handsome donation, and Mr. Cooke began the month with \$150 to credit.

The report of Mrs. Berger showed that one person had been sent to the Queen's hospital, another to the incurables, four children to the Kona Orphanage, and that there had been 110 office interviews. Governor Dole's opinion was asked on one odd case. When the barkentine Archer was here an old man, 72 years of age, whose profession had been that of a civil engineer, came ashore. He had had free passage, but was without a dollar. He went at once to the Associated Charities and threw himself upon their mercies. He was sent back to the Archer, but returned. He became feverish, and out of pity Mrs. Berger sent him to the hospital. He came out in better health, but dependent. He assumed the attitude, "I am here now, what are you going to do with me." The Charities has been boarding, and sheltering the man, and they are endeavoring to send him back to the coast. The man can get no employment. The subject was fully discussed and under the circumstances the governor said the man should be considered under the vagabond section of the law and treated as such. In this manner he could probably be sent out of the country.

It was reported that with the four children just sent to the Kona Orphanage that hospital of refuge is crowded, fifty children being cared for. The Castle Home has sixteen, with room for only four more, showing that both institutions are an absolute necessity and worthy of the community and individual support, which they are greatly in need of now.

It was shown that most of those seeking aid from the Charities are bona fide residents of Honolulu, few being from the outside world.

### STEAMER AMERICA MARU IN A TERRIFIC TYPHOON

(Continued from Page 3.)

the glass falling to 28.10, the lowest record Captain Going, the liner's commander, had ever known in his long experience.

The steamer drifted across the center and then struck into the whirling eddy opposite, the wind again howling with hurricane force. Just then a great sea came across the waist of the steamer and struck down the bath house steward, who was foolishly trying to go aft, hurried him with great force against the iron deck house, smashed his head and killed him instantly. As the water came into the staterage aft it caused great fear among the Japanese people and several thought the ship was sinking, and their cries and yells added to the tumult of wind and bucking seas. Just then the side of the hospital aft was above in and five unfortunates therein were hurled to the floor, happily none the worse except for a drenching.

About midnight the steam steering gear was carried away, and but for the careful handling of the steamer by the commander standing on the bridge in drenching rain and flying spume, under a sky of inky blackness, serious trouble might have resulted. Steering by the twin screws, Chief Officer Benington undertook to get the steering gear to work, in which he was finally successful. The courageous actions of the officers averted the fatal troughing of the ship.

Shortly after midnight the glass had risen to 28.60 and the worst was over. The passengers refer to Captain Going, Mr. Benington, Chief Engineer Thompson, Purser Bemis and the remaining officers in terms of the highest praise.

THE ELUSIVE PIGSKIN is the source of much sport and the cause of many injuries. Foot-ball players should use Chamberlain's Pain Balm, an anti-septic liniment, especially valuable for sprains and bruises. One application gives relief. Try it. All dealers and druggists sell it. Benson, Smith & Co., Ltd., agents for Hawaii.

## REPUBLICANS AT ORPHEUM

### Young Men's Club Arranges for Meetings.

Fourth district Republican candidates will hold the stage at the Orpheum on Saturday evening, and there promises to be a meeting which will, in its interest, equal any that has yet been seen during the campaign. The Young Men's Republican Club has arranged for a series of Saturday evening gatherings, and the first to be held day after tomorrow will set the note in excellence for those which will follow.

The meeting will be under the charge of the club entirely, and the plan will be to have members of the organization to act as ushers and to see that every visitor has proper seating arrangements. There will be a number of seats held for ladies, and it is expected that this feature of the evening's meeting will be an attractive one. There will be other things than a mere series of speeches, for the Ellis quintette and the Young Men's Republican Club vocal quartette will intersperse music all through the meeting.

The speakers will be introduced by President Andrews of the club, who will preside throughout the meeting. They will be the candidates for the lower house, as follows: S. F. Chillingworth, Frank Andrade, W. W. Harris, Carlos Long, William Aylett and Jonah Kumulua. It is expected that there will be only a short speech from each of these, so that the meeting will not be long drawn out.

The meeting promises to be one of a series of attractive gatherings, which will draw out the very best speakers in the party. Each Saturday evening hereafter there will be a meeting at the Orpheum, under the same auspices, which will furnish a culminating point for the enthusiasm of the week.

### KAUAI SEEMS REPUBLICAN.

The trend of political action on Kauai is all Republican, according to the sentiments expressed in the various letters received from the Garden Isle by members of the Republican central committee. The following letter from W. H. Rice, Jr., and John D. Willard, local committee men for the island, show the outlook of the Hanalei end: "We have had news today from Hanalei that as a result of the Republican campaign of Prince Kuhio and his party there, and of other good work done in that district, prominent Home Rulers held a meeting at Hanalei last night, at which they disavowed further affiliation with the Home Rule party, and came out strongly for the Republican cause. We feel that this is not the result of hasty consideration, but the outcome of mature deliberation on the part of those who took this decided step. It was just a week yesterday since Prince Kuhio and his campaign party held big meetings in Hanalei, and this speedy result is very gratifying and encouraging."

"It looks as though Kauai was going to be a landslide for our whole ticket. We have also heard that Home Rule campaigners here, hearing this news from Hanalei, cancelled all other engagements and are hastening to Hanalei to do what they can to save their party in that district. We feel that the good work of Judge Kakina, Republican central committee man, has had much to do with this wholesale conversion to Republicanism."

"Total registration here, after all deductions, is 1,041."

### PORTUGUESE PLAN MEETING.

The Portuguese Republican Club will meet this evening at the rooms of the Young Men's Republican Club, for the purpose of completing arrangements for the great mass meeting on Punchbowl, to be the feature of tomorrow evening. There are yet certain things in the way of the securing of speakers to be carried through, and all of these will have attention at this meeting. The Republican meeting on Friday evening promises to be one which will break all records in the matter of attendance that have been made recently. The interest of the Portuguese citizens in everything governmental has grown since the hearings of the Senatorial commission, and the voters and others are now anxious to hear everything which will affect later action upon their claims for the lands upon which they live.

## METEOROLOGICAL SUMMARY FOR MONTH OF SEPTEMBER

Temperature mean for the month, Pahala 85.0; normal, 77.2; average daily maximum, 83.5; average daily minimum, 71.6; mean daily range, 11.9; greatest daily range, 17 degrees; least daily range, 7 degrees; highest temperature, 86; lowest, 67.

Barometer average, 29.946; normal, 29.968; highest, 30.06; lowest, 29.79; 20th; greatest 24-hour change, 1. e., from any given hour on one day to the same hour on the next, 0.11; "lows" passed this point on the 10th, 20th and 30th; "highs" on the 7th, 14th and 28th. The barometer has been below the normal since the month of May; the average for the nine months of this year is also low.

Relative humidity average, 74.7; normal, 68.5; mean dew point, 68.0; normal, 64.0; mean absolute moisture, 7.51 grains per cubic foot; normal, 7.00. Dewy mornings continuously, 11th to 21st.

Rainfall, 2.27 inches; normal, 1.98; rain-record days, 22; normal, 18; greatest rainfall in one day, 0.51 on the 20th; total at Luakaha, 10.02; normal, 10.21; at Kapoliapi Park, 0.82; normal, 0.38.

The artesian well level fell during the month from 33.10 to 32.95 feet above mean sea-level; September 30th, 1901, it stood at 33.20. The average daily mean sea-level for the month was 9.68 feet, the assumed annual mean being 10.00 feet above datum. For September, 1901, it was 10.46.

Trade-wind days, 19 (3 of NNE); normal, 28; average force of wind during daylight, Beaufort scale, 1.9; average cloudiness, tenths of sky, 3.07; normal, 4.0.

Approximate percentages of district rainfall as compared with normal: Hilo, 160 per cent; Hanalei, 300; Kohala, 165; Waimea, 200; Kona, 125; Kauai, 200; Puna, 190; Maui, 175; Oahu, 125, excepting Kahuku, 270; North Kauai, 60; South Kauai, 125. The rains were quite evenly distributed through the month.

Mean temperature, Pepeekeo, Hilo District, 100 elevation, mean maximum, 81.3; mean minimum, 71.6; Waimea, Hawaii, 2720 elevation, 81.6 and 64.7; Kohala, 521 elevation, 80.8 and 68.4; Waialeale, Kula, Maui, 2700 elevation, 81.8 and 62.0; Ewa Mill, 50 elevation, 86.0 and 69.8; U. S. Experiment Station, 58.9 and 71.4; U. S. Magnetic Station (near Ewa), 50 elevation, 89.8 and 69.8; W. R. Castle's, Honolulu, 50 elevation, highest 88.0, lowest 68.0; mean 77.1.

Ewa Mill, mean dew point, 66.4; mean relative humidity, 68.2; U. S. Magnetic Station, 67.7 and 68.0; Kohala (Bond), 68.5 and 84.0.

Earthquakes reported, Pepeekeo 24th, 9:30 p. m., and Hilo 28th, 6:13 a. m., smart shock, "severest in six years"; Kealahou 19th, 5:30 p. m.; Waimea 26th evening, 27th evening and the earthquake of the morning of the 28th. During the first half of the month the molten lava disappeared from the pit in Kilauea, on the 16th active again and rising, light visible at 30 miles distance. The "glows" brighter than in August.

Light fall of snow on Mauna Kea, 20th. No electric storms noted. Heavy surf, 1st to 4th, and 27th. Tidal wave on Puna coast, S. E. Hawaii, on 2nd. Calm weather 10th to 21st, without trades.

CURTIS J. LYONS,  
Territorial Meteorologist.

## SOUGHT TO END LIFE

### Tanbara Attempts to Starve Him- self.

(From Thursday's Daily.)

Tanbara Gusburo, the Japanese cabin boy of the Fred J. Wood, indicted yesterday for the murder of Captain J. J. Jacobsen, attempted on Monday night to take his own life in his cell at Oahu prison. As a result the alleged murderer is being watched closely both in prison and on the frequent trips to the Judiciary building, where he will soon be given a trial in United States Court.

All day Monday Tanbara was in a sullen mood. He refused to partake of either food or drink, and remained in his cell alone, brooding over the crime. During the day, he told the condemned Japanese murderer, who is confined in the cell opposite to him that he intended to commit suicide the first opportunity he got. The proximity of the Japanese who had already been convicted of murder and sentenced to hang probably did not soothe the mind of Tanbara to a very great extent.

At night Tanbara remained awake and continued to pace his cell, watching the officer, and Warden Henry instructed the guard to watch him closely. Later in the night when it was seen that the Jap had no intention of retiring a thorough search of his cell was made, and the officer found upon his person a small cord, which might have been used by the prisoner to kill himself if he had been given the slightest opportunity. Following this discovery of the guard was redoubled and yesterday Warden Henry notified United States Marshal Hendry to keep a close watch of the prisoner while he is outside of the prison walls.

Tanbara is brought to the court house every morning in handcuffs, and he is closely watched by the officers every minute. The boy's appearance has not changed much since he was first in court last July, excepting that his hair has grown to an unusual length, and almost conceals the face. Tuesday Tanbara evidently decided that starving to death was not the easiest way to commit suicide and he began eating again as usual.

#### APPEARS IN COURT.

Tanbara was before Judge Estee yesterday afternoon for arraignment upon the charge of murder upon the high seas. The prisoner having neither money nor friends, the court appointed Frank E. Thompson to defend. The indictment was not read to him yesterday, as he was not ready with a plea, and the prisoner will not be arraigned until tomorrow. The trial will be taken up as soon as possible, though probably not until next Monday. Judge Estee stated yesterday that he was anxious to hear the case as soon as possible because of the fact that two witnesses had been brought here from San Francisco, and he did not wish to detain them longer than was necessary.

Upon motion of United States Attorney Breckons, Judge Estee appointed J. H. Hakuole interpreter to read to the defendant the indictment, the list of witnesses and the names of the jurors. Under the statute the United States is required to give two days' notice to a defendant charged with a capital crime, of the indictment, witnesses and jurors, and in his motion the United States Attorney set out that the defendant did not have a sufficient knowledge of the English language to understand these records, so the Japanese interpreter became necessary.

## ISLAND GIRL IN DIVORCE SUIT

NEW YORK, October 7.—The suit of Helen A. Johnson against Carl A. Johnson for absolute divorce came up before Supreme Court Justice Marston in Brooklyn today. The couple were married in Philadelphia in 1920. A woman named Hilma of Brooklyn and Louise Hart, a half-breed girl of the island of Oahu, Hawaii, are named as co-respondents. The defendant is an engineer.

Testimony was taken by a commission to the effect that in 1928 Johnson lived in a cottage in Bergland street, Kahuku, plantation, Kahuku, island of Oahu, with the Hart girl, who was of surprising beauty. They were frequently seen together at the seaside resort known as Saha Soudi. Justice Marston, after reading the papers, marked on them "Jurisdictional facts require further proof."

#### The Cost of Living.

CHICAGO, Oct. 9.—The cost of living has been discussed before the arbitration committee sitting the grievance of the employees of the Union Traction Company. Tables, presented in behalf of the men, showed that the prices of thirty-seven necessary articles had gone up and fifteen decreased, while the street car men have worked at the same wage for sixteen years.

The average advance in the cost of living was given at 40 per cent in five years. Meats showed an advance ranging from 15 to 35 per cent. House rents ran from 40 to 60 per cent, while no estimate could be placed on coal. The men urged that this heavy increase in the cost of living, and the advances made in other trades, should be weighed when the question of giving them a higher wage scale is taken into consideration.

#### Bragg Transferred.

WASHINGTON, October 8.—Edward R. Bragg, Consul General at Havana, has been transferred to the post of Consul General at Hongkong, taking the place of William A. Rublee, who has been transferred to the Consulate at Matsuyama.

## MITCHELL WON'T CALL OFF STRIKE

(Continued from Page 1.)

said that he expected to see Mr. Morgan again this afternoon, and also expected to see President Mitchell. Governor Odell was also a party to the conference.

#### CATHOLIC PRIEST AT WORK.

WILKESBARRE, Pa., October 9.—Very Rev. P. C. Nagle, rector of St. Nicholas German Catholic church of this city, which has one of the largest congregations in Northeastern Pennsylvania, among them being many mine workers, wrote to President Baer of the Reading company a few days ago, appealing to him to do something for his people. He stated there was not so much complaint against the scale of wages as there was against the lack of steady work. He felt that if the companies would promise the men work six days a week instead of an average the year around of four days a week, the workers would have little cause for complaint.

Dr. Nagle received the following reply from Mr. Baer today:

"I am willing to promise the men full time and steady work except when work is prevented by unavoidable accidents. I am quite sure the conditions are such that I can keep this promise. Will you kindly tell me how I can give this assurance to the men to make it most effective?"

#### THE TROOPS ON DUTY.

WILKESBARRE, Pa., October 9.—The entire third brigade, under command of General Gobin, is now in the Lackawanna and Wyoming valleys and has control of the territory from Wapwallopen and Mocoanaga on the south to Forest City on the north, a stretch of sixty miles.

The general's attention was called to statements made by company superintendents that the production of coal depends altogether where the troops are relied to protect workmen and he was asked if his men will do police duty. He replied that he would do whatever Governor Stone ordered him to do. The soldiers were respectfully received everywhere in the valley.

#### TRYING TO GET COAL.

NEW YORK, October 9.—Three committees of citizens, representing the Merchants, manufacturers and the Board of Trade of this city, in joint conference, have decided to call a mass meeting to be held next Monday evening in Carnegie music hall to discuss means of getting coal to the city. It was resolved that discussion on the merits of either side in the strike should be discouraged and the main question of getting coal would be the only one considered.

#### AN ENGINE DERAILED.

HAZLETON, Pa., October 9.—The engine and one car of a Lehigh Valley coal train were derailed during the night a short distance from the Lattimer colliery. The derailment was caused by a big stone which had been placed on the track. A detachment of Company "I," First regiment, which was summoned, discovered other obstructions on the rails further east.

Italians with clubs threatened to stop trolley cars at Harleigh today, but they dispersed before it was necessary to call the militia.

#### SEIZING AMMUNITION.

SCRANTON, (Pa.) October 9.—One thousand rounds of ammunition was seized and confiscated at the Delaware and Hudson freight station in Olyphant today by order of Colonel Watres of the Thirteenth regiment. This makes 2,500 rounds of ammunition that has been confiscated in the anthracite district commanded by Colonel Watres within the past two weeks.

The ammunition was consigned to Bastiano Passano, a leader among the Italians in upper Lackawanna county. Passano was placed under arrest as he was about to receipt for the ammunition. Colonel Watres has been informed that bodies of men have been drilling in the woods almost daily. Yesterday he had detachments of men out scouring the woods for evidence of such action and the knowledge that the consignment of ammunition had been shipped to Passano was obtained by one of these detachments.

#### THE STRIKE EPIDEMIC.

NEW YORK, October 9.—The Brauer line is re-importing 20,000 tons of anthracite coal, which had been distributed in Germany.

WASHINGTON, October 9.—The President has not yet exhausted all efforts in bringing about an end of the strike, but the time has not yet come to disclose the purpose of the administration.

LONDON, October 9.—The Workmen's National Committee has decreed a general strike throughout Switzerland in sympathy with street car employees. Troops have been ordered out.

ST. LOUIS, October 9.—All the militia of New Orleans have been ordered out to protect the operation of the trolley cars.

LAREDO (Texas), October 9.—President Diaz has ordered out troops to protect trains on the railroad from strikers. The Mexican government has taken charge of the road.

#### Corpses in Cold Storage.

LOUISVILLE (Ky.), October 8.—Thirty dead bodies were found tonight in the cold storage in the rear of an ice cream factory on Eighth street. The same pipes which were used in conveying the cream for table use were connected with a small plant in a shed in the rear, where they kept the bodies cool. It was at first thought that the cadavers had been brought here from Indianapolis, but the heads of several colleges interested in the establishment asserted tonight that the bodies were obtained legitimately by them from the penitentiaries, insane asylums and other State institutions in the State of Kentucky.

## DIAGRAM OF PRESIDENT ROOSEVELT'S SERIOUS HURT

### DR. BERNAYS' DIAGNOSIS.

While Dr. Bernays was supervising the work of the Post-Dispatch artist, he discussed the case interestingly.

Dr. Bernays said that while it was true that he had made good guesses as to the outcome of the two operations, which were performed upon President McKinley and King Edward VII, he was not anxious to establish a reputation as a long-distance diagnostician.

"The case of President Roosevelt seems more difficult to diagnose," said the doctor. "The official statement says that only 'perfectly pure serum' was found, and evacuated by the incision. This may have been a blister, and would deserve but little attention. I never heard the opening of a blister called a surgical operation."

## VISIT OF SIAM'S CROWN PRINCE

WASHINGTON, Oct. 9.—The Crown Prince of Siam and party, who are to arrive here Saturday next, will be brought to this city on a special train, arriving about 8 o'clock in the morning, and will be received by the President. If his condition will permit it, at the temporary White House at 11 o'clock. Saturday evening the party will be entertained at dinner by Secretary Hay and Sunday evening a dinner will be given in honor of the visitors by the Siamese Minister. Monday the party will visit the Naval Academy at Annapolis. The program for Tuesday includes a visit to Mount Vernon. On Wednesday the Prince will proceed to Wilmington, Del., and then will visit Philadelphia incognito from the 16th to the 22nd inst., when the party will go to New York. The program for their entertainment in that city includes a visit to the West Point Academy on the Dolphin on the 23rd, a dinner by Mayor Low on the 24th, a visit to the home of Mr. Hyde of the Equitable Life Insurance Company at Bay Shore, Sunday, the 25th, and a dinner by Mr. Hollis of New York, a member of The Hague arbitration court, on Monday, the 27th, and on the same evening the Prince and party will be entertained by the Presbyterian Board of Foreign Missions at the Metropolitan Club; and it is probable the Crown Prince will give a dinner himself on the following evening. On the 29th the party will go to Boston and remain there three days.

The official entertainment will terminate at Boston, whence they will start on a tour of the country, visiting Syracuse, Niagara, St. Louis, Kansas City, Colorado Springs, Pike's Peak, Portland, Or., Seattle, San Francisco and other cities. The itinerary will cover a distance of 7,131 miles and will consume about four weeks' time.

#### Boxed a King's Barn.

VIENNA, October 8.—The correspondent at Belgrade, Serbia, of the News Wiener Tagblatt says that to revenge herself upon King Alexander for stopping her "pin money," Queen Draga created scandalous scenes before the courtiers. The King reproached the Queen with being the cause of his life. Queen Draga retorted with coarse abuse, accusing the King of a liaison with her sister Helen, and even boxed the King's ears.

#### San Francisco Stocks.

NEW YORK, October 9.—The governing committee of the New York Stock Exchange has admitted to dealings on the regular list \$15,000,000 United Railroads of San Francisco preferred stock and \$10,000,000 of common stock.

"It is eminently proper, however, to have a blister opened under antiseptic precautions, and therefore it seems quite the proper thing to have taken our much-admired President to an operating room in a hospital if only to open a blister. I do not care to discuss this case any further because I am not posted on the political end of it."

"Recalling the President from an important political tour on account of a blister containing 'perfectly pure serum' savors somewhat of politics."

"I heard of Morganitis in a music hall in London, but did not think that the disease had reached the Western hemisphere. Surgery is a rather clear department of medicine, but when it gets mixed up with politics I will have none of it."

## TROUBLE WITH HOSTILE INDIANS

DENVER (Colo.), October 9.—The first authentic news of the shooting of Warden Harris by Indians was received by Governor Orman today in the following dispatch from the warden himself, dated Fallside today:

"Had slight trouble with the Indians. I am slightly wounded. Everything quiet." Immediately upon receipt of this dispatch Governor Orman got into communication with the sheriff at Meeker and asked him regarding the situation. The sheriff replied that he might need assistance. The governor summoned Adjutant General Gardner and the advisability of sending several companies of the National Guard to the front was discussed. No action was taken.

Governor Orman stated that it must first be determined whether the state or Federal Government should look after the matter.

#### BLIND PEOPLE

Form a Club Called "The Joillest People on Earth."

WHEELING, W. Va., October 8.—A unique organization has been formed in the city, to be known as "The Joillest People on Earth." The object of the club is to help blind people. It was a novel crowd that got together in the home of John Simmons, the well-known match salesman, and obligated themselves to stand by one another through thick and thin to the end of time. They organized and decided to hold a meeting the second Thursday in each month and discuss their trials and tribulations, as well as their joys.

#### Shamrock's Skipper.

GLASGOW, October 9.—The proposal to place the Shamrock II, under the control of an American skipper and crew when she is refitted to meet the new challenger, has been abandoned, and the report that at the conclusion of the tests on this side of the Atlantic Captain Charles Davis and the crew of the Shamrock I will be transferred to Shamrock II is confirmed. Captain Davis is a novice in the racing for the America's cups, but he commanded the bureau, winner of the French international cup, and the Alisa, and is reckoned among the best steersmen. He is a man of exceptional resources and originality.

#### Le Baron Johnson Returns.

NEW YORK, October 7.—Rev. James Le Baron Johnson, who eloped with Miss Hoffman, the "angel nurse" of Bellevue Hospital has returned to New York with his wife and baby. He married Miss Hoffman in London after his wife, who was Miss Mabel Van Rensselaer, had got a divorce from him. Johnson is a son of Archdeacon Johnson of Staten Island.

## TYPHOON IN JAPAN

YOKOHAMA, October 4.—A Hakodate dispatch delayed in transmission states that during the typhoon of the 23rd and 24th ult. several buildings of the Hokkaido Railway Company were destroyed, the damage amounting to seven or eight thousand yen. Over ten sailing vessels and other craft were wrecked.

As to the damage caused by the late storm it has so far been ascertained that about 10,000 houses were destroyed and over ninety persons killed in Mito and fourteen adjoining districts in Ibaraki Prefecture.

In the Ashio copper mine, 487 houses were washed away and about 300 lives lost, while a large number of people were buried alive under debris, according to a telegram from Utsunomiya.

From telegrams and personal narrations it seems that the typhoon which visited this section of Japan on Saturday night and Sunday centralized its fury in the region of Odawara. Tidal waves visited the shores at Odawara, Kodzu, Kamakura, Oiso, and loss of life and immense damage to property ensued. The telegraph reports that at Odawara alone 50 houses were washed away and eight persons killed on Sunday morning. The Yumoto-Kodzu-Odawara line was completely paralyzed. Whole sections were lifted bodily—sleepers and rails—and transported hundreds of yards inland. At the power house, the dynamo was reported still there, but the house was supposed to be "up the mountains somewhere." The loss will eat up a considerable amount of the year's profits of the line.

In all about 600 lives were lost.

#### VOLCANOES ACTIVE.

The volcano Risyu, in the Taipei Prefecture, Formosa, has been active since 6 p. m. on the 10th ult. Though casualties have not occurred crops sustained some damage.

Kirishima-yama, one of the active volcanoes in Japan, has of late been in a bad condition, emitting so-called flames and a rumbling sound. Residents in Kagoshima Prefecture, where it stands, are very apprehensive.

## RATTLERS DRIVE OUT THE POLICE

CHICAGO, October 8.—Rattlesnakes, with no regard for the dignity that goes with high rank in the Police Department, invaded the Desplaines street Police station today, and drove forth not only the patrolmen, but sergeants and lieutenants and even Inspector Shea. For three hours a particular portion of the city, wherein is located the West Side Bastille, was in undisputed possession of rattlers.

There were just a dozen of the reptiles, but there might as well have been a hundred. A thoughtless policeman sent a big valise which he found to the station and it was placed in a cell room. Then an inquisitive lieutenant opened the satchel, and three seconds later his cries brought fifteen policemen to his rescue, but when they saw the twelve snakes wriggling over the basement floor they deserted their official superior and led the way for him to the street.

The rattlers were in no mood to recognize police authority, and, being of an inquisitive turn, they slipped along in rapid pursuit of the fugitives. Doors were closed, but the reptiles let out a few coils and emerged through the station windows. Street cars were halted, wagon traffic was abandoned and pedestrians generally scampered off for lofty perches of safety. Fifteen policemen, in doleful retreat, safe from rattler stings, on telegraph poles and lamp posts, watched a barefooted newsboy gather up the fugitive wrigglers and stuff them back into a potato bag. Then they descended and learned that the snakes from which they had fled were minus their fangs, being the property of a circus performer.

## MICROBES SWARM IN NEW YORK

NEW YORK, Oct. 7.—Alarming conditions in the air, in the uncleaned and improperly cleaned streets of New York have been presented to the Board of Estimate and Apportionment by Commissioner Woodbury in his plea for an increase of \$465,316 in the appropriation of the Department for Street Cleaning. He presented statistics and photographs showing that an army of germs hovers over the city, and that in the congested districts of the East Side bacteria swarm above the streets. For months a scientific investigation has been going on to ascertain the danger in the refuse of the streets, its character and the proper way to fight it. This investigation is yet incomplete. Water is to be the remedy suggested. Under the direction of well-known scientists an investigation has proceeded since July 12th and photographs of the atmosphere were taken after many experiments between August 1st and August 16th to prove the statistics gathered. These photographs were taken at least twelve hours after a heavy rain in order to warrant normal conditions.

Commissioner Woodbury presented data showing the number of colonies of bacteria caught by gelatine plates at the curb and at an elevation of six feet in various parts of the city. They vary from ten or a dozen colonies in the best districts to nearly a hundred thousand in the East Side. The plates were all exposed half an hour, and after being placed in an incubator were photographed.

#### Jared Smith's Report.

The first annual report of Jared Smith, chief of the United States experimental station here, has been issued from Washington and received in Honolulu. It covers the work of the station, the agriculture of the islands, and the outlook. The text is embellished by handsome pictures.

## MOONSHINER CONVICTED

### Ton Pong is Found Guilty by Jury.

Ton Pong was found guilty of illicit distilling in the United States court last evening and will be sentenced on Monday morning.

The evidence in the case was all in at the time of the afternoon adjournment and Judge Estee ordered the jury to return in the evening. At 8 o'clock the jury was instructed by the court and was allowed to remain in the court room to consider their verdict. The ten or twelve gallons of okolehau which had been used in evidence were removed from the court room and taken to the marshal's office. The alcohol and still will both be destroyed by Collector Chamberlain, the law providing such a disposition of illegally manufactured liquor.

The jury was out but half an hour before reaching an agreement of guilty as charged in the indictment.

The trial of Jean Sabate, on a charge of violating the postal statutes, will be opened this morning.

The trial of the illicit distilling case occupied the entire day. The only witnesses for the government were the internal revenue officers who made the raid. They told of admissions made by the Chinese at the time of the arrest, and gave expert testimony as to tests made of the okolehau. Attorney Rawlins, for the defense, tried to show, that the only reason they had for thinking the stuff is alcohol, was tests made with a hydrometer, which he insisted would have given the same results in an alkali.

Collector Chamberlain, who was the last witness, testified that the Chinese had never secured a license and the still was not registered in his office as required by law.

Ton Pong went on the stand in his own behalf, and denied the ownership of the still, saying that it belonged to a native who rented room in the same premises. He said further that he had no connection with the manufacture of the liquor. The evidence was all in at 4 o'clock, and adjournment was taken at that hour until evening.

#### VIERRA ENTERS PLEA OF GUILTY.

Manuel Vierra, also charged with violation of the internal revenue laws, entered a plea of guilty. Monday was fixed as the day for sentence.

In the case of Daisy Vierra, a continuance was asked by Mr. Breckons until the next term of court, the defendant being released upon her own recognizance in the meantime. Mr. Breckons stated that as the husband had taken the burden upon himself he would not push the case against the woman. In the meantime the facts will be laid before the commissioner of internal revenue with the request that he permit a nolle prosequi to be entered.

#### OTHER MATTERS.

Jean Sabate entered a plea of not guilty to each of the four indictments brought against him for violation of the postal statutes. The trial is set for today.

Tanbara, the alleged murderer of Captain Jacobsen, will plead this morning. He will have a hearing next Monday.

The case of Kawakita, charged with illicit distilling, was set for next Wednesday.

F. J. Wilhelm was excused from jury service upon a physician's certificate.

## MESSMAN SAYS HE SAW WRIGHT

It was ascertained yesterday almost beyond a doubt that William H. Wright, the treasurer of the territory of Hawaii, who is alleged to have defrauded to the extent of \$17,949.91, made his escape from the islands to this country on board the Alameda, but whether he did so as a stowaway or as a cabin passenger under an assumed name are questions yet to be decided. Frank Costor, who was the second messman on the Alameda, but who is now in the steward's department on board the Sierra, declared positively yesterday, when shown a picture of the missing man, that he saw Wright on board the Alameda, but he claims the absconding treasurer was traveling as a saloon passenger.

In telling of what he saw, Costor said: "I had frequently been to Honolulu and had on several occasions worked there. I used to see Wright walking along the streets. I saw him so often that I came to know him. I saw him when he boarded the Alameda. He then had his mustache on. I saw him a day or so later, after we had put to sea, and he had his mustache shaved off. It was my duty as second messman to go into the forecastle to tidy up the officer's rooms, and it was then I saw Wright. He was traveling as a first-class cabin passenger. I did not know anything at the time about Wright being a defaulter, and I attached no significance to his cutting off his mustache. He did not keep to his room, but mingled with the other passengers."

James Brannigan, who was also one of the crew on board the Alameda, said that he had been told by a fellow shipmate that Wright was aboard the ship and that when he reached this port he stole off while the vessel was in quarantine. He said that when Wright left Honolulu there was sickness there and that no one was allowed to leave without a certificate of good health. As the defaulter Treasurer could not wait to secure one certificate, but came without it, he would have been held in quarantine in Angel Island. So it was necessary for him to make his escape as soon as the Alameda dropped anchor. How he accomplished this is not yet known. Costor's and Brannigan's statements destroy the belief held by some that Wright is still concealed in the islands—The Call.

#### Castro Playing Out.

SAN JUAN (P. R.), October 8.—According to advices received today from Venezuela by the steamer Caracas, it seems certain that the revolutionists will triumph, probably in a fortnight, and that Le Guayra and Caracas will capitulate. Every effort is being made to capture President Castro, who, it is asserted, will be assassinated if caught. The President, it is claimed, will attempt to seek refuge on board a foreign man-of-war.

## SUGAR NOW LOOKING UP

Feeling at Coast  
as to Higher  
Prices.

"The general feeling as to sugar is that there will be very soon, some men think within the coming month, a sharp recovery as to price." Manager Fairchild, of the Mahee Sugar Company, who has just returned from San Francisco, thus explained the cause for the advance in island securities at the coast. He went on: "The forecast of Professor Licht is taken to mean that the shortage will be even greater than 1,000,000 tons for the coming campaign. It has been put as high as two millions, and as there will probably be heavy buying in expectation of the shortage, the new sugars will reap the benefit of the conditions."

"It is the belief of those who follow the market that the price will reach or pass four cents very soon. This feeling has made things brighter for all island business on the coast, and there is a general feeling that all values will advance. The condition of general business in California is good. There is a deal of building and there would be not a cloud if it was not for the labor outlook. The mechanics are developing a tendency to make trouble for the contractors, by leaving them in the lurch often when they have taken contracts, and as a result some of the men who did much work in the past are now declining to bid on new contracts. One man told me that he could not take a job for he could not tell at what moment his workmen would strike, and thus leave him without any chance to fulfill his contract."

Manager Watt, of Honokaa, was another of the sugar men who returned on the Alameda, after several months' absence, during which time he visited his former home abroad. He said that the feeling was better in San Francisco and the trend of the market for island securities was up. The men who have to do with sugar, he said, were confident that the price would soon pass four cents, and that there would be a shortage of something like two millions of tons in the European beet output.

The Financial Letter of San Francisco says:

Prof. Licht of Magdeburg, the well-known authority on European sugar statistics, has published the preliminary figures of his estimates of this year's European output as 5,400,000 tons, against 5,900,000 tons for 1901. A very heavy decrease, which is accounted for by 11 per cent less acreage than the previous year, and unfavorable weather for the crop during the latter part of the season. Against this favorable news the total stock of sugar in all the principal countries on Sept. 1, 1902, was about 2,000,000 tons, against 1,000,000 tons in round figures at the same time last year.

## DANGER OF OTHER TUMBLES IN VENICE

NEW YORK, Oct. 7.—Discussing Signor Boni's work in connection with the reconstruction of monuments in Venice, a dispatch to the Times from that city by London says the Doge's palace, the Church of St. Mark, the Doge's palace, the Procuratie Vecchie, the Zecca, and the Church of Santa Maria della Salute, and the Church of San Giovanni Paolo need prompt attention if catastrophes are to be averted.

In St. Mark's there is a crack in the great arch of the Apoclypse, and the arch sags downward almost a foot. It is expected that it will be necessary to remove all the mosaics of the arch, and that the brick wall behind them will have to be more solidly constructed. In the Doge's palace diagonal lesions are visible, and it looks as though the brick work were tumbling outward. The correspondent says that this is not surprising, seeing that one of the chief internal walls was cut through in order to make room for an elevator for the heavier books in the Biblioteca Marciana.

In the Procuratie Vecchie there are serious cracks, caused probably by the whole demolition of internal walls and the stacking of heavy goods in the rooms above the colonnade.

The correspondent comments on the folly of the civil engineering corps which is preparing to remove the Biblioteca Marciana to the Zecca. The latter building is already in a rickety condition from top to bottom. The engineers intend to roof in the renaissance court yard so as to make a reading room out of it.

The correspondent says it is probable that the place will tumble in before the library can be opened. Regarding the general subsidence of Venetian soil, Signor Boni believes that the land has sunk at the rate of about 34 inches a century.

### The Postal Exhibit.

WASHINGTON, Oct. 7.—Auditor Castle, for the Postoffice Department, has balanced the books of the postal service for the year ending June 30, 1902, and the result shows the following as the year's business of the entire postal service:

Gross receipts	\$121,448,047
Total expenditures	124,802,217
Net deficit	2,950,170

The gross receipts of postal revenues exceed those of the previous year by about \$10,115,824, and the deficit is more than one million dollars less than the previous year, notwithstanding heavy extra expenditures for rural free delivery, etc.

### Tax Day in New York

NEW YORK, Oct. 7.—There was a rush to pay city taxes on the first day of collection which broke the record in the amount of money paid and in the number of persons in line. The estimated total receipts for the day reached \$270,000.

When the windows were opened more than 2,000 property owners were in line. The largest single payment was from the Vanderbilts and New York Central. This came in the form of one check for \$800,000. The Astor estate paid in \$350,000. An unexpected payment was made by the New Amsterdam Gas Company on its assessments for the franchise tax. Corporations thus far have refused to pay this tax on the ground that it is unconstitutional.

## "VETS" IN LINE AT WASHINGTON

WASHINGTON, Oct. 7.—The sunshine which ushered in the opening of the G. A. R. encampment yesterday was succeeded today by cloudy weather. But the change had no effect on the spirits of the vast crowds which early swarmed into the banner-decked streets and hurried to Pennsylvania avenue to take their places for the big naval parade which was to be the chief event of the morning. It was estimated that over 100,000 visitors were in the city.

The parade was under the command of General Heywood, commandant of the marine corps, as marshal of the day, and consisted of all the regular troops located in and about Washington, marines and jacksies from the warships, the District of Columbia National Guard, the Spanish war veterans, Sons of Veterans, High School cadets and the Association of ex-Prisoners of War, acting as escorts for the naval veterans. The column started at 10 o'clock and marched through the densely packed streets to the accompaniment of almost continuous cheers to the reviewing stand opposite the White House, where the escorting bodies halted and formed to review the Naval veterans who filed past and disbanded near the State, War and Navy buildings.

About forty-five naval veterans' associations participated. Among them were the Farragut Naval Association, Vallejo, California; Commodore Hopkins' Soldiers' Home Naval Association, California; and the United States Veteran Navy and the Naval Legion of San Francisco.

Even while the parade was in progress the reunions of some of the army corps were taking place in the tented city on the white lot.

## BLOODSHED IN NEW ORLEANS STRIKE

NEW ORLEANS, La., Oct. 7.—Violence started with the first attempt of the railway company to carry out the order of the mayor to run its cars today. Just before 7 o'clock the company started out three cars from the barns on Canal street. On each car, manned by a non-union motorman, there was a police force. Crowds of strikers and sympathizers were on the streets. When the cars reached Miro street the tracks were blocked and when they came to a stop the crowd made an attack. A pistol shot was fired and the non-union men attacked. One of them, F. H. Scheenick, a conductor, from Chicago, was badly beaten.

When the rioting spent itself three cars were left standing upon the track guarded by policemen. All the windows were smashed. The mob captured Scheenick and his motorman, and both consented to join the union. Some of the policemen were hurt by flying stones.

When news of the rioting reached the City Hall, the mayor issued a call for a meeting of the police board. It is understood that the object is to swear in emergency policemen.

Governor Heard will order out the militia when he is notified by Mayor Decadeville that the situation has become beyond control of the municipal authorities.

As the company temporarily abandoned the attempt to operate the cars on Canal street the situation quieted down. The union headquarters will be kept open to receive any offer of negotiations looking to a settlement.

## PAWNED WATCH FOR FRANCHISE

NEW YORK, Oct. 7.—A New York lawyer has been compelled to pawn his watch here to get a charter for the Whippany and Passaic River Railroad Company, says a Herald dispatch from Trenton, N. J. When the attorney reached the State Department he discovered that he had come away without the money for the filing fees although he had brought \$14,000 for the certificates. He had but a small sum of change in his pockets and the corporation clerk informed him that without the requisite \$15 there could be no filing of the charter. The lawyer protested that the parties interested in the company were awaiting a telegram from him announcing the issuance of the charter in order that a meeting could be held at once. The court attaches were obdurate, however, and a visit to the nearest pawn shop was made. Here the necessary sum was realized and the charter was procured. A telegram order for money soon arrived and the attorney redeemed his watch. The proposed railroad is to be seven miles long and capitalized at \$375,000.

### Ship Arrivals by Wireless.

SAN FRANCISCO, October 4.—The work of connecting the Farallon Islands and Point Reyes by wireless telegraphy began yesterday. Heavy & Tibbitts, who have the contract for the building of the radio station on the islands, began the work of construction at noon and expect to finish within sixty days. Two buildings will be erected on the islands and two masts 150 feet in height. A similar station will be built at Point Reyes. The wireless telegraph system is being inaugurated by the weather bureau. Forecaster Official McAdie hopes to have the system in operation by the first of next year. If it proves a success, connections will be made with all the weather bureau stations along the coast.

### Bouffiere Uneasy.

KINGSTOWN (St. Vincent), October 2.—After a week of tranquillity in St. Vincent, signs of disturbance again appeared. There was a slight eruption at 5 o'clock at night. Today the volcano resumed its quietude.

## PRINCE KUHIO IS ELIGIBLE BY AGE

Home Rule Rumor Spread by Wilcoxians Disproved by Queen Dowager's Bible.

PAUL ISENBERG.

W. C. ACHIL.

L. L. McCANDLESS.

REPUBLICAN SENATORIAL NOMINEES FOR OAHU.

Kalaniana'ole.

Hanau, March 26th, 1871.

Thus runs the entry in the family Bible of the late Queen Dowager Kapiolani, and the few words kill the rumor, which is being industriously circulated by Home Rulers that a vote for Prince Kuhio is a vote thrown away as he is not eligible for the office of delegate.

If there was any point about which the late dowager queen was particular it was the recording in her diary of events of importance. In the office of her estate there are a number of diaries filled with remarks on various subjects, put down each day, and so great was her fidelity to this record that it has been accepted as evidence in an important suit. In these years 1892, '94, '95, '96, and 1898, appear various references to the celebration of the natal day of Prince Kuhio, fixing the accuracy of the record as to the day of the month, and thus creating the presumption of the truth of the entire entry.

The rumor as to the ineligibility of the Prince is of a part with the other that he did not register. This was too easily proved to be incorrect, and then the Home Rulers fell back upon the other misstatement as to the age of the Republican candidate. They reckoned without their host, for the ancient Bible, bearing upon its morocco back the name of its owner, was found and the record in it has confounded the rumor-mongers. The fact that the Home Rulers stand not upon the truth or falsity of a report which is dealt out to them is shown by the fact that at a meeting on Sunday evening, several speakers of that party made the charge that Prince Kuhio was under age and that he knew it and that the Republicans were intending to force him upon the people despite his ineligibility.

PRINCE KUHIO OFF FOR MAUI.

After his enthusiastic reception by the voters of Kona Oahu at Pearl City, the Republican candidate left yesterday in company with Stephen Desha and Representative Makekau for a trip through Maui. They landed at Lahaina last evening, and made their first appearance there. From that point they will continue their trip and will wind up the speaking campaign for that island on Saturday week, returning here the next day.

That will mean that the last week of the fight on Oahu will be full of interest, there being much speaking done at every point of vantage during the eight days remaining after the candidates return. There will be one day off, that being Sunday, November 2. According to plans now made the Prince and a friend will take a special steamer on Saturday night, November 1, and spend Sunday at the Lepers settlement. This will permit their return here in time for the work of Monday, and then the closing of the fight. It is now planned to have the meeting of Monday, November 2, preceded by a great torchlight procession, and then the paraders will march to Palama, where they will be reviewed and addressed by the candidates.

The Princess Kuhio is now on Maui, and will accompany her husband on the greater part of his journey, and will also return with him at the close of next week.

### MANY MEETINGS PLANNED.

The active work of the speaking campaign is now on and from this time until the end of the struggle there will be not the least let up. The meetings are being arranged by the various committees, the Young Men's Republican Club, and in some instances by the candidates. This means that there will not be a vacant evening from now until the very finish.

The Fourth district committee will open its active struggle this evening with a meeting at Kakaako. The meeting will be held upon the open lot manuka of the Honolulu Iron works, and there will be a number of the best

speakers of the party present to discuss the issues.

This is the only meeting so far arranged for the week, but it is expected that another will be settled upon for Saturday evening. The candidates for senator will speak on Thursday evening at Kailhi Camp, on Friday evening at Iwilei, and on Saturday evening at the end of the tramway's tracks in Palama. The attention to be paid to the Fifth district will be out of all proportion to that which will be given to the Fourth, as it is realized that there must be a greater changing of voters on the north side of Nuuanu than to the south.

### YOUNG MEN'S REPUBLICAN CLUB PLANS.

Not content with an open house campaign, the Young Men's Republican Club will this evening inaugurate its meetings, the speakers to be carried through the city on a wagon which will at the same time furnish a platform from which to speak to the crowd which may be attracted. There will be a musical club in the company. These moving lectures will be given on Monday, Wednesday, and Friday evenings. For each Saturday there will be a great meeting at the Orpheum. The program as arranged to date is as follows: This evening Kailhi Camp and Mollili church; October 17th, Punchbowl; October 20th, Waikiki road, opposite the Moana hotel, and Kailhi; October 22nd, Manoa valley; October 24th, Pauoa valley; October 27th, South and Queen streets, Kakaako, and Kailhi camp; October 29th, Mollili, and October 31st, Puunui. The three Orpheum meetings of October 18th and 25th and November 1st will be specially attractive gatherings.

### SENDING OUT LITERATURE.

The steamers yesterday bore large consignments of printed matter which was forwarded to the various committeemen on the other islands. The packages which went up contained large blocks of copies of the platform, of the life and argument of Prince Kuhio, and of Senator Thurston's speech.

In sending out this literature the various committee chairmen of the outside districts have been notified that they must see that it is put into the hands of the voters as soon as possible that they may have a chance to assimilate the arguments of the Republicans in this campaign. It has been decided that there will be sent out some 30,000 copies of the various documents printed and these will go into every home in the islands.

There is a demand for Prince Kuhio buttons which cannot be met with the local manufacturers. There is being sent out more than a button for every man in the islands, but even the invoices which have already been distributed are not in any way sufficient to meet the demand for this souvenir of the fight.

At the headquarters of the Young Men's Republican Club a committee under headship of E. Dekum is constantly in attendance each evening, and literature and general information is distributed to every caller who has any wish for facts.

### LEPERS ARE ACTIVE.

Every mail gives indication that the unfortunate at Kalaupapa are doing all in their power to break down the possibility of Wilcox to do them harm with his leper bill. The men and women at the settlement have undertaken to write to every friend who can be found to use his influence against the Delegate, and the reason is assigned that the residents at the settlement are unwilling that they may be placed under control of a malignant. Some of the leaders at the settlement are said to be preparing an address to the voters of the territory, refuting the charges of bad faith and attacking the plan of the delegate to escape paying for the care of the patients. The question is asked in some of the letters which have been

received, why, if there are so many great doctors in the United States, has been a cure effected among the lepers there not been a cure effected among the lepers there, and why must Hawaiians furnish the basis for experiments by young men.

## Crying for Help

Lots of it in Honolulu But  
Daily Growing  
Less.

Backache is one of the first indications of kidney trouble.

It is the kidneys' first cry for help.

Heed it.

Doan's Backache Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidney; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Honolulu citizen.

Mr. Charles Comey, of Cyclomere street, this city, one of the many persons who have tried Doan's Backache Kidney Pills with great advantage, relates his experience thus: "I have been a hack driver for a number of years past and this is an occupation in which, through exposure to weather and much jumping up and down from the vehicle, one is particularly liable to kidney complaint. I suffered myself from a lame back for a long while, and in my anxiety to get rid of it tried several things which did not reach the root of my trouble. An advertisement acquainted me with what grand work Doan's Backache Kidney Pills were doing, and I got some of them at the Hollister Drug Co.'s store. I used them and with very much profit, for they relieved my back wonderfully."

Doan's Backache Kidney Pills are for sale by all dealers or sent by mail on receipt of price, 50 cents per box, by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name Doan's and take no other.

### Chicago University.

CHICAGO, Oct. 7.—President Harper has told the new students at the University of Chicago that before the close of the year he expects to have plans complete for a great school of technology. "Hitherto our school has been like a college," said Dr. Harper. "Now, with the addition of courses in law and medicine, the incoming student is brought into real university life at the start. Besides these professional schools we expect that before the end of the year the plans for a great school of technology will have been fully worked out."

### Investigates Porto Ricans.

A. G. Hawes, secretary to the Governor, left on the Claudine yesterday for Hawaii to investigate the condition of Porto Ricans at Paauilo. Governor Dole has already made a preliminary report upon the complaints of Porto Ricans as to ill treatment on the plantations, and now a personal investigation is made in order to complete the report.

SORE AND SWOLLEN JOINTS, sharp, shooting pains, torturing muscles, no rest, no sleep—that means rheumatism. It is a stubborn disease to fight, but Chamberlain's Pain Balm has conquered it thousands of times. One application gives relief. Try it. All dealers and druggists sell it. Benson, Smith & Co., Ltd., agents for Hawaii.

## Furniture

Just received a new line of LADIES' DESKS in MAHOGANY, BIRD'S EYE MAPLE, GOLDEN OAK, and WEATHER OAK; LADIES' DRESSING TABLES in MAHOGANY, BIRD'S EYE MAPLE and GOLDEN OAK. These are in new designs and the latest patterns.

Makawell 23 1/2  
Onomea 20 1/2  
Paauhau 13 1/2  
Coffee—Spot Rio, dull, No. 7 invoice, 5 1/2c; mild, quiet. Futures closed net unchanged to 5 points lower. Total sales, 18,000 bags, including October, 5,10c; November, 5,15c; December, 5,25c; 5,30c; January, 5,35c; March, 5,50c.

A. E. Co. Oil Depot.

The American-Hawaiian Steamship Company of New York has purchased harbor frontage on the southeastern side of the harbor at St. Thomas, D. W. I., for the establishment of a depot for oil and fuel. The company expects shortly to commence building a wharf and deepening a channel preparatory to having their steamers call there instead of at the Island of St. Lucia.

DIED.

BHAW—At Hilo, October 11, 1902, Fred N. Shaw, a native of St. Paul, Minnesota, aged 44 years, a brother of Mrs. William Blaisdell of Honolulu.  
BECKWITH—At Los Angeles, California, September 26, 1902, Ellen Holmes Beckwith, daughter-in-law of Dr. E. G. Beckwith, pastor of the Foreign Church, Pala, Maui, and mother of Ruth Beckwith, now visiting her grandparents on Maui.

ROYAL Baking Powder

Makes the bread more healthful.  
Safeguards the food against alum.  
Alum baking powders are the greatest menaces to health of the present day.

REVENUE CUTTER REQUIRED HERE

Without adequate assistance furnished by the treasury department, in the way of a revenue cutter or some other craft manned by government employees, there is little prospect of the collector of customs being able to enforce the law collecting duty on every pound of fish brought into Honolulu by Japanese fishermen. A short time ago an American fish dealer who had a stall in the fish market complained to the United States attorney that it was impossible for a white man to compete with the Japanese in the fishing trade unless protection was given the Americans by the imposition of the duty on fish brought to port by them. The United States attorney referred the matter to Collector Stackable, who in turn requested an opinion from Washington. The opinion was forthcoming, and gave him the power to collect duty on fish so brought here.  
Collector Stackable then discovered that there were some technicalities connected with the enforcement of the provision which would nullify all his efforts to increase Uncle Sam's revenue, unless straightened out by the legal department. One difficulty lay in the fact that the burden of proof rested with the informant or collector, and this was to prove that the fish so caught were outside the three mile limit. To be certain of this a watch would have to be kept on the Japanese sampans to observe whether they were within or outside the limit. The collector believes that for this, as for many other features connected with the customs regulations, a revenue cutter should be provided by his department to cruise in Hawaiian Waters. The United States attorney is now studying the proposition.

CLEAR FOR KOLOA AND LAHAINA

The collector of customs received in the Nippon Maru the authority of the treasury department given to the United States consul at Newcastle, N. S. W., to allow the clearance of vessels at that port of Koloa, Kaula, and Lahaina, Maui, without entering first at Honolulu. This gives the privilege to the vessels to make these two ports direct without coming to Honolulu, entering here, and then weighing anchor for Kaula and Maui. The letter to Collector Stackable comes from A. L. Spaulding, in which he states that the acting treasurer writes from Washington: "This department has to inform you that the honorable secretary of state has been instructed to inform the United States consul at Newcastle, N. S. W., to allow the clearance of vessels to Koloa and Lahaina as contemplated by the regulations."

Cable Repair Ship Dock.

Satisfactory arrangements have been entered into between Messrs. Dickenson and Harrington, representing the Pacific Cable Company, and the B. F. Dillingham Co., whereby the former company will have the right to dock the cable repair ship to be stationed at this port at the head of the Dillingham Railway wharf. The repair ship will, as a usual thing, be anchored in the Naval Row, except at such times as she will be loading coal, cable and other supplies, when the wharf privileges will be taken advantage of.

Bark Brought Dynamite.

The American bark W. B. Flint, from San Francisco, and the American ship W. H. Smith, from Newcastle, were the only arrivals here yesterday. The Flint brought a large cargo, part to be discharged here and a portion at Makawell. She brought a deckload of baled hay, well housed and protected from the elements, for this port. A large amount of fertilizer will be discharged here. In the merchandise for Makawell is 50 tons of dynamite to be used in constructing the Makawell ditch along the Olokele river, Kaula.

Warren Now a Freighter.

SAN FRANCISCO, October 7.—At Seattle repairs have been completed on the transport Warren at a cost of \$10,000. The vessel is now a regular freighter, the after sternum having been removed. New furnaces have been put in the decks calked and the transport was given a thorough overhauling. She is to be used to carry supplies from Puget Sound to the Philippines.

Toyko Kisen Dividends.

YOKOHAMA, September 7.—A general meeting of shareholders of the Toyko Kisen Kaisha was held in Tokyo on the 20th inst. when a dividend was declared at the rate of 12 per cent per annum.

BARB'S COUGH MUST NEVER LINGER.—Nothing is more distressing than to see a helpless little infant suffering with a cough, and to be fearful of using a remedy which may contain some harmful ingredient. The makers of Chamberlain's Cough Remedy positively guarantee that this preparation does not contain opium in any form, or any other harmful substance. Mothers may confidently give this remedy to their little ones. It gives prompt relief and is perfectly safe. It always cures and cures quickly. All dealers and druggists sell it. Remson, Smith & Co., Ltd., agents for Hawaii.

CLAIM CHARGE IS EXORBITANT

The trial of the suit of M. Rosenberg vs. W. R. Hoare, British consul, for \$980 alleged to be due for clothing furnished the shipwrecked sailors of the Fannie Kerr was begun yesterday afternoon before Judge Estee. The sale of the goods is admitted, but the cross-examination of the defendant shows the defense to be that the charges are exorbitant.  
Rosenberg was on the stand for the greater part of the afternoon and he let in considerable light upon the clothing business. The chief objection to his bill was the charge for suits of clothes, Rosenberg furnishing entire suits of three pieces when but trousers and jackets were called for. He testified to charges of \$7.50, \$10, and \$12.50, and admitted that he was to have furnished suits of uniform price and but coat and trousers. The witness said he supplied coat, pants and vest, but that he sold the three just as cheap as others would have sold the two pieces. In reply to cross examination he said the vests were given to the sailors as charity. The charge for one outfit was much greater than for the remainder, and Rosenberg testified that it was because the sailor was of extraordinary size. He said that the man's feet were so large that he did not have shoes big enough for him and he had to send out for them. The man required extra sizes of under clothes, so an extra charge was made. The witness also admitted having furnished \$2 hats to the sailors when the British consul had ordered caps. Captain Bray was the second witness, and his testimony was just concluded when adjournment for the day was taken. The hearing will be resumed this morning, at 9 o'clock.

Coming From San Francisco.

The following vessels are either on the way or to sail from San Francisco for Honolulu, Hilo, and Kahului:  
Gerard C. Tobey, American bark, Gove; Defender, American schooner, Masters; Coronado, American barkentine, C. Potter; Fullerton, American barkentine, Kahului; Enterprise, American steamer, Miller; Nevada, American steamer, H. F. Weed; Adams, United States steamer; Andrew Welch, American bark, Drew; Oregon, United States steamer; Mauna Ala, American bark, Smith; Roderick Dixon, American bark, Johnson; Annie Johnson, American bark, Engalls; Hilo; Kinahu, American steamer, Freeman; George Curtis, American ship, Bennett; Alden Besse, American bark, Kessel; W. H. Dimond, American barkentine, Hansen; R. P. Riffet, American bark, D. McPhail; Irmgard, American barkentine, Schmidt; W. H. Marston, American schooner, Curtis; Archer, American barkentine, R. Calhoun; Marion Chilcott, American ship; C. D. Bryant, American bark, Colly; St. Katherine, American bark, Saunders; Hilo; Archer, American barkentine, Calhoun; Rosamond, American schooner, Johnson; S. N. Castle, American barkentine, Nilson; Planter, American barkentine, Chase; Martha Davis, American bark, McAlman, Hilo.  
The Tobey is out 14 days; Defender, 14; Coronado, 9; Fullerton, 8.

Mohican Loading Sugar.

Captain Kelly of the bark Mohican began loading in a cargo of 800 tons of sugar. He expects to sail from port to San Francisco about the middle of the coming week.

BY AUTHORITY, EXECUTIVE NOTICE.

The Governor directs that notice be given that the following named persons have been commissioned Inspectors of Election:

FIRST DISTRICT, ISLAND OF HAWAII.

First Precinct:  
H. E. Wilson, Esq.,  
J. N. Kamoku, Esq.,  
Dr. J. Holland.  
Second Precinct:  
W. H. McQuaid, Esq.,  
W. B. Naillma, Jr.,  
J. W. Koakulana, Esq.  
Third Precinct:  
W. H. Little, Esq.,  
Robert Andrews, Esq.,  
David Spaulding, Esq.  
Fourth Precinct:  
Wm. Vannatta, Esq.,  
Geo. Kaibenu, Esq.,  
J. T. Stacker, Esq.  
Fifth Precinct:  
J. T. Moir, Esq.,  
J. M. Kauli, Esq.,  
Simeona Paaluh, Esq.  
Sixth Precinct:  
A. B. Oliveira, Esq.,  
H. K. Unea, Esq.,  
Wm. Hay, Esq.  
Seventh Precinct:  
E. W. Barnard, Esq.,  
C. H. Swain, Esq.,  
J. K. Makunakane, Esq.  
Eighth Precinct:  
Albert Horner, Esq.,  
S. B. Kawahapaula, Esq.,  
Wm. Green, Esq.  
Ninth Precinct:  
Chas. Fox, Esq.,  
John Al, Esq.,  
Geo. F. Hall, Esq.  
Tenth Precinct:  
Wm. Horner, Esq.,  
Jas. Kuuwelu, Esq.,  
J. G. Jones, Esq.

SECOND DISTRICT, ISLAND OF HAWAII.

First Precinct:  
W. P. McDougall, Esq.,  
Joseph Huser, Esq.,  
J. F. Woods, Esq.  
Second Precinct:  
J. Crowley, Esq.,  
D. W. K. Malahala, Esq.,  
Chas. Wells, Esq.

Third Precinct:  
L. S. August, Esq.,  
W. K. Wadman, Esq.,  
J. K. Laloha, Esq.  
Fourth Precinct:  
Henry Greenwell, Esq.,  
K. Keaweahawaii, Esq.,  
R. Wassman, Esq.  
Fifth Precinct:  
Geo. McDougall, Esq.,  
J. Nahiau, Esq.,  
Joseph Kaeo, Esq.  
Sixth Precinct:  
R. F. Buchholz, Esq.,  
Sam Kaalali, Esq.,  
D. Kaupika, Esq.  
Seventh Precinct:  
Robert L. Wilhelm, Esq.,  
David K. Wallehua, Esq.,  
S. P. Eaton, Esq.  
Eighth Precinct:  
W. P. Pennell, Esq.,  
E. Ikaaka, Esq.,  
J. K. Hoopli, Esq.

THIRD DISTRICT, ISLANDS OF MAUI, MOLOKAI, LANAI AND KAHOLAWE.

First Precinct:  
Wm. Nottley, Esq.,  
W. Clark, Esq.,  
C. H. Brewster, Esq.  
Second Precinct:  
J. H. Mahoe, Esq.,  
D. McCriston, Esq.,  
John Kamal, Esq.  
Third Precinct:  
Henry Dickenson, Esq.,  
C. V. Dudoit, Esq.,  
A. Makekau, Esq.  
Fourth Precinct:  
Geo. Kauli, Esq.,  
D. Kapaku, Esq.,  
L. K. Kalama, Esq.  
Fifth Precinct:  
S. Kahohalahala, Esq.,  
M. Kealakaa, Esq.,  
Keoni Nakikei, Esq.  
Sixth Precinct:  
Dr. R. W. Boote, Moses Kaunimahu, Esq., James L. Coke, Esq.  
Seventh Precinct:  
D. Quill, Esq.,  
A. C. Kauehola, Esq.,  
J. J. Walch, Esq.  
Eighth Precinct:  
C. G. Hofgaard, Esq.,  
Sam Kuula, Esq.,  
Sam Pualoa, Esq.  
Ninth Precinct:  
Geo. Forsyth, Esq.,  
E. H. Kekapa, Esq.,  
Noa Kamakau, Esq.  
Tenth Precinct:  
W. F. Mossman, Esq.,  
J. E. Kekipi, Esq.,  
Henry Long, Esq.  
Eleventh Precinct:  
J. R. Myers, Esq.,  
J. Vincent, Esq.,  
D. Opunui, Esq.  
Twelfth Precinct:  
Chas. Haul, Esq.,  
D. W. Naphias, Esq.,  
G. W. Kawahamae, Esq.  
Thirteenth Precinct:  
F. Wittrock, Esq.,  
G. W. Kauehane, Esq.,  
B. K. Kalwiga, Esq.  
Fourteenth Precinct:  
J. K. Pimenu, Esq.,  
P. M. Kaluna, Esq.,  
H. W. Kahale, Esq.  
Fifteenth Precinct:  
L. R. Crook, Esq.,  
J. D. Uwekolani, Esq.,  
G. K. Kunukau, Esq.

FOURTH DISTRICT, ISLAND OF OAHU.

First Precinct:  
John Effinger, Esq.,  
H. McCullom, Esq.,  
Stephen Umauma, Esq.  
Second Precinct:  
C. M. White, Esq.,  
W. C. Wilder, Esq.,  
P. L. Weaver, Esq.  
Third Precinct:  
F. McIntyre, Esq.,  
Albert Waterhouse, Esq.,  
J. P. Kahahawai.  
Fourth Precinct:  
W. C. King, Esq.,  
T. C. Polikapp, Esq.,  
J. R. Hall, Esq.  
Fifth Precinct:  
A. F. Cooke, Esq.,  
E. K. Liliakani, Esq.,  
J. Mahoney, Esq.  
Sixth Precinct:  
O. Swain, Esq.,  
C. L. Beal, Esq.,  
John Mahuka, Esq.  
Seventh Precinct:  
G. C. Chalmers, Esq.,  
John Kekuku, Esq.,  
A. Irvine, Esq.  
Eighth Precinct:  
Wm. E. Fisher, Esq.,  
Fred Turritt, Esq.,  
Geo. E. Smithies, Esq.  
FIFTH DISTRICT, ISLAND OF OAHU.  
First Precinct:  
H. Cobb-Adams, Esq.,  
J. M. Kealoha, Esq.,  
E. P. Alfve, Esq.  
Second Precinct:  
A. W. Crockett, Esq.,  
J. H. Keane, Esq.,  
Joseph Kekuku, Esq.  
Third Precinct:  
W. S. Wood, Esq.,  
C. P. Lane, Esq.,  
Chas. David, Esq.  
Fourth Precinct:  
C. J. Holl, Esq.,  
H. Hul, Esq.,  
S. W. Kallieha, Esq.  
Fifth Precinct:  
C. S. Richardson, Esq.,  
P. A. Swift, Esq.,  
B. Starr-Kap, Esq.  
Sixth Precinct:

Kauka Williams, Esq.,  
John E. Kahoa, Esq.  
Seventh Precinct:  
Julius Kaehe, Esq.,  
John Kaehe, Esq.,  
K. E. G. Wallace, Esq.  
Eighth Precinct:  
C. R. Dement, Esq.,  
Aas Kaula, Esq.,  
W. W. Bristol, Esq.  
Ninth Precinct:  
A. W. Neely, Esq.,  
S. H. Meekapu, Esq.,  
F. W. Weed, Esq.  
Tenth Precinct:  
M. H. Keohokalote, Esq.,  
Abraham Bolster, Esq.,  
W. K. Kalehuia, Esq.

SIXTH DISTRICT, ISLANDS OF KAUAI AND NIIHAU.

First Precinct:  
J. B. Kaomea, Esq.,  
J. W. Keala, Esq.,  
Nohokula, Esq.  
Second Precinct:  
O. Omsted, Esq.,  
P. Kaalawaawa, Esq.,  
L. Kilauna, Esq.  
Third Precinct:  
C. B. Hofgaard, Esq.,  
S. Makalia, Esq.,  
A. Bomke, Esq.  
Fourth Precinct:  
H. H. Brodie, Esq.,  
J. K. Palama, Esq.,  
Walter D. McBryde, Esq.  
Fifth Precinct:  
David Kapahae, Esq.,  
James Kula, Esq.,  
H. Blake, Esq.  
Sixth Precinct:  
H. D. Wishard, Esq.,  
Kaukanibia, Esq.,  
S. W. Kawas, Esq.  
Seventh Precinct:  
J. W. Neal, Esq.,  
K. Kaumuali, Esq.,  
S. W. Meheula, Esq.  
Eighth Precinct:  
W. Kinney, Esq.,  
P. Migela, Esq.,  
I. M. Cox, Esq.  
Ninth Precinct:  
C. H. Willis, Esq.,  
D. H. Kanehe, Esq.,  
C. B. McKee, Esq.

HENRY E. COOPER,  
Secretary of the Territory.  
Capitol, Honolulu, October 16th, 1902.  
2427—Oct. 17, 21, 24, 28, 31.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE AND OF FORECLOSURE SALE.

IN ACCORDANCE WITH THE terms of a certain mortgage made by the Wailua Beach Hotel Co., Limited, an Hawaiian corporation, of Wailua, Island of Oahu, dated the 14th day of September, 1901, to Lewers & Cooke, Limited, an Hawaiian corporation, which mortgage is recorded in book 227, at page 155, notice is hereby given that the mortgagee intends to foreclose the same for condition broken, to wit, non-payment of interest when due, non-payment of rent, non-payment of taxes when due.  
Notice is likewise given that after the expiration of three weeks from this notice the property conveyed by said mortgage will be advertised for sale at public auction at the auction rooms of James F. Morgan in Honolulu, on Monday, the 10th day of November, 1902, at 12 o'clock noon of said day.  
Further particulars can be had of W. R. Castle or P. L. Weaver, attorneys for mortgagee.  
Dated, Honolulu, Oct. 10, 1902.  
LEWERS & COOKE, LIMITED,  
Mortgagee.

The property covered by said mortgage and to be sold on said day unless the amount due, with expenses of foreclosure shall have been paid, are as follows:  
That certain leasehold made by Kepane Mele and Kazemoku to Charles David, dated the 23rd day of June, A. D. 1900, and recorded in book 256, page 398, and assigned by him to the Wailua Hotel Company, Ltd., by bill of sale dated Aug. 20, 1901, recorded in book 240, page 87, which leasehold covers that lot of land at Paalaa, District of Wailua, Island of Oahu, described in L. C. A. No. 2903, Apana 3 thereof, on which Royal Patent No. 1491 was issued, except that portion taken by the railway of the Oahu Railway and Land Company, which lease is for a term of 15 years from date thereof, at a rental of \$120 a year. Area, including roadway aforesaid, about 47-100 of an acre. Also the buildings on said leased premises, with the contents and appurtenances.  
2424—Oct. 10, 17, 24, 31.

IN THE CIRCUIT COURT OF THE FIFTH CIRCUIT, TERRITORY OF HAWAII—AT CHAMBERS.—IN PROBATE.

In the Matter of the Estate of H. P. Hugas, late of Keala, Kaula, deceased. Order of Notice of Hearing Petition for Allowance of Final Accounts, Distribution and Discharge.  
On reading and filing the petition and accounts of George H. Fairchild, administrator of the above named estate, wherein he asks to be allowed \$18.00 and he charges himself with \$224.07, and asks that the same may be examined and approved; and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him and his sureties from all further responsibility as such administrator:  
It is ordered that Thursday, the 13th day of November, A. D. 1902, at ten o'clock A. M., before the Judge of said Court at the court room of the said Court at Lihue, Island of Kauai, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property.  
Dated at Lihue, this 6th day of October, 1902.  
By the Court: JNO. A. PALMER, Clerk.

2425—Oct. 10, 17, 24.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE AND OF FORECLOSURE SALE.

NOTICE IS HEREBY GIVEN THAT pursuant to the power of sale contained in that certain mortgage dated September 15, 1899, made by Henry

D. Roberts of Honolulu, Island of Oahu, Territory of Hawaii, mortgagee, to William O. Smith, Mary S. Parker and Henry Waterhouse, Trustees under the will of W. C. Lunaillo, deceased, of said Honolulu, mortgagees, and recorded in the Register Office, Oahu, in Liber 119, pages 123-125, the mortgagees intend to foreclose said mortgage for condition broken, to wit: the non-payment of principal and interest when due.

Notice is likewise given that the property conveyed by the said mortgage will be sold at public auction at the auction rooms of James F. Morgan, Queen street, Honolulu, on Saturday, the 25th day of October, A. D. 1902, at 12 o'clock noon.

The property covered by said mortgage consists of:

All that certain lot, piece or parcel of land situate at Kuuwili, in said Honolulu, being a part of Royal Patent Number 1797 L. C. A. 33, P. L. and bounded and described as follows:

Beginning at the West corner and running thence adjoining the half of the portion of Kalamhou at a stone marked X, thence, N. 43° 30' E. 138 links along the portion of Kalamhou;

S. 53° E. 141 links along Apana 2 of Nahuia;

N. 63° W. 142 links to place of beginning, containing an area of 15-100 acre, and being the same premises conveyed to said mortgagee by deed of Kabele (w) dated September 15, 1899, and recorded in the office of the Registrar of Conveyances, Oahu, in Liber 119, pages 430-431.

Said land is situated near Oahu Prison, makai of the road and is adjacent to the new railroad wharves, and fronts upon a proposed Government road; the property is valuable for any who seek a situation close to the harbor and shipping facilities.

Terms: United States Gold Coin. Deeds at the expense of the purchaser. For further particulars apply to William O. Smith, Judd Building, Honolulu.

Dated, Honolulu, September 30, 1902.

WILLIAM O. SMITH,  
MARY S. PARKER,  
H. WATERHOUSE, Trustees.

6237—Oct. 1, 2, 24, 25.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE AND OF FORECLOSURE SALE.

NOTICE IS HEREBY GIVEN THAT pursuant to the power of sale contained in that certain mortgage dated December 7, 1895, made by Henry D. Roberts of Honolulu, Island of Oahu, Territory of Hawaii, mortgagee, to William O. Smith, Mary S. Parker and Henry Waterhouse, Trustees under the will of W. C. Lunaillo, deceased, of said Honolulu, mortgagees, and recorded in the Register Office, Oahu, in Liber 119, pages 123-125, the mortgagees intend to foreclose said mortgage for condition broken, to wit: the non-payment of principal and interest when due.

Notice is likewise given that the property conveyed by the said mortgage will be sold at public auction at the auction rooms of James F. Morgan, Queen street, Honolulu, on Saturday, the 25th day of October, 1902, at 12 o'clock noon.

The property covered by said mortgage consists of: All that certain lot, tract, piece or parcel of land situate at Kuuwili, Honolulu, Island of Oahu, Hawaiian Islands, bounded and particularly described as follows, to wit:

Commencing at the Old Lusa Heiau near the edge of the Kawa Pond and running North 87° West 77 feet; thence South 43° 30' West 97 feet; thence South 53° East 101 feet; thence following the fence in a general Northeasterly direction to the place of commencement, being a portion of the land described in Royal Patent No. 1187, Land Commission Award No. 83 E. L. to Kahahawai and the same premises conveyed to the said mortgagee by deed of David Bent, dated March 21, 1895, recorded in the Hawaiian Registry in Liber 152, page 411.

Said land is situated near Oahu Prison, makai of the road and is adjacent to the new railroad wharves, and fronts upon a proposed Government road. The property is valuable for any who seek a situation close to the harbor and shipping facilities.

Terms: United States Gold Coin. Deeds at the expense of the purchaser. For further particulars apply to William O. Smith, Judd Building, Honolulu.

Dated Honolulu, September 30, 1902.

IN THE CIRCUIT COURT OF THE FIFTH CIRCUIT, TERRITORY OF HAWAII—AT CHAMBERS.—IN PROBATE.

In the Matter of the Estate of David Trask, of Koolau, Kauai, deceased. Order of Notice of Hearing Petition for Administration.

On reading and filing the petition of James K. Trask of Koolau, Kauai, alleging that David Trask of Koolau, Kauai, died intestate at said Koolau, leaving property in the Hawaiian Islands necessary to be administered upon, and praying that letters of administration issue to himself:  
It is ordered that Thursday, the 13th day of November, A. D. 1902, at 10 o'clock A. M., be and hereby is appointed for hearing said petition in the court room of this court at Lihue, Kauai, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted, and that notice of this order be published in the English and Hawaiian languages for three successive weeks in the Hawaiian Gazette and Koolau newspapers in Honolulu.

Dated at Lihue, October 14th, 1902.

(Signed) J. H. HARDY,  
Judge of the Circuit Court of the Fifth Circuit.

Attest: JNO. A. PALMER,  
(Signed) Clerk of the Circuit Court of the Fifth Circuit.

2427—Oct. 17, 24 and 31.
